Important Information.

Prices subject to change without notice.

All direct mail orders, without exception, entered at lowest prices on day received.

We are quoting meats by averages so you can get just what you want. In packing, we do not go more than two pounds under or over the average specified. For illustration: if you order 14 pounds average, we will send you none under 12 pounds or over 16 pounds. When you order, kindly state the average desired.

Always use the same names and terms we do in this printed list. This will enable us to give you good service—which is our desire.

Damaged goods must be returned promptly, **or no allowance can be made.**

We send out many hundred pieces of meat every day, and despite our vigilance a piece will get out, slightly off in flavor, or having a bruise not apparent until cut. If you receive such, return immediately, and send us your shipping receipt, a memorandum of the article and its weight, and the date it was received by you. Always attach your card or shipping tag, so that we may know it is from you and be able to give you prompt credit.

To prevent sugar-cured meats from excessive mold and shrinkage, they should be removed from package on arrival and hung in a cool, dry place where there is plenty of good ventilation. This will also keep them looking bright and inviting to your trade.

All shipments of boiled hams, fresh meat, or sausage, when not in our refrigerator cars or by express, are at buyer's risk.

Please report promptly to our treasurer or secretary any inattention, unsatisfactory product or treatment, delays or errors in executing your orders, or any matter whatever that you think should be righted. We have an army of employees, and if any are careless or discourteous you will confer a favor by advising us.
